

Article number		width (mm)	thickness (mm)
39-979 HEAT SHRINKABLE TAPE	50 m	20	0,07

PROPERTIES	VALUES	UNITS
Material	cross-linked POLYOLEFINE	-
Temperature of use	-55 to +105	°C
Shrink temperature	+ 130	°C
Dielectric strength	30	kV/mm
Resistance against chemical products	excellent in general	-
Storage stability	excellent until +90°C	-

Specification: Heat-shrinkable tape forming on the object which it covers a continuous wall, insulating and tight.
